Since 2009, **The Country Music Project** has been performing as a seven-piece ensemble with four-part male and female vocals, along with a fiddle and pedal steel guitar. This instrumentation gives the group the ability to perform a tremendous variety of music – from traditional country, to modern country, to party and variety music. TCMP also breaks down into smaller ensembles for acoustic performances.

TCMP is Colorado's most experienced, talented, and entertaining live music! Be sure to add **The Country Music Project** to the program for your event!

▶ Performances

The Country Music Project performs modern country, traditional country, classic rock and party variety music. The group customizes its shows for each event. Dancehalls need dance music, concert series' need show music, and national artists need an opening act who can fire up the audience with powerful original music.
